SUN BEAMS

By WALTER M. BARRETT

Last week an honest-looking man, who knew his business stopped off in Truckee and bilked local citizens with a new watch "racket". It seems that he displayed fine looking watches, bearing the stamp of nationally known manufacturers and from all appearances very good merchandise. After the man left the watches stopped running and a more thorough survey revealed them next to worthless. Fortunately the culprit was stopped in Reno and returned the money to the victims, but that was a rare occurance. More often those sly rascals get away and continue to ply their trade elsewhere. We mention this just as another concrete example of how we are "taken in" by the peddler. It is a shame that despite these many examples, many still fall for the glibster and lose in many instances.

The fire department has decided to institute a campaign for safety in Truckee. First they are planning to isolate theprincipal hydrant on the main street against car parkers who carelessly leave their machines too near the hydrant to permit use of the fire truck in an emergency. As a second step, a committee has been selected to make a survey of the rooming houses, hotels and public bulidings to ascertain if fire escapes and other precautions are provided. The department hopes it will not run into difficulties in the program and solicits cooperation instead. No doubt this project is an important one and well worthy of the efforts.

Perhaps we are not looking in the right places, but since the opening day of the fishing season we haven't seen those promised game wardens in the district. Not that we need them so bad now, but we wonder if they have done all there is to do and departed.

Ho, Hum, here we go again. We took a look down the main street this morning and tried to visualize how it would look if some of the debris was removed. Then we looked down the alley back of the main street and decided the latter was in fine trim in comparison. Everything from broken bottles and papers to wrecked automobiles and boilers litter the alley, while on the main thoroughfare we are spared the abandoned wrecks and the boilers. No doubt at all that this condition is one we must learn to tolerate, if we are not capable of doing anything about it. The health menace of swill and sewage has been removed, but the eye sores and fire hazards are still with us and we continue to "waste printing" talking about them.

These summery days should remind us that it will soon be time for the infulx of vacationists and summer residents who find at Lake Tahoe and Truckee the world's finest summer vacationland.

DISCUSS MAN TEACHER

Board Meets To Decide On Contracts For Coming School Year

Reemployment of the present staff of teachers for the Meadow Lake Union high school, featured the meeting of the board of trustees here on Tuesday night. Considerable discussion centered about the advisability of employing a man instructor to handle physical education, manuel training, athletics and other subjects of more interest to boys, but the plan was temporarily dropped, it being the concensus of opinion that an additional instructor with a diminishing enrollment would not be advisable and it was found impractical to replace one of the three women teachers.

A deliberate and systematic thief, who is now well stocked with hams, bacon and butter, last Friday broke into the rear of the Truckee Meat Market and looted the place.

A typewriter and two or three good butcher knives were taken besides a case of butter and hams and bacons.

Investigation by Walter Ashton, the maager of the shop, assisted by local officers, revealed that the burglar had gone about the job in a most deliberate manner. By first breaking a glass in the heavily screened rear window, the culprit flashed a light upon the barred door, ascertaining where the bars were located and then with a bit, cut holes over and below the bars, easily permitting their removal. The rear of the store was shielded by a high bank of snow which would have prevented his detection.

THE LADY OF THE HOUSE

Officially, on census report and tax return, the lady of the house is listed as just plain "housewife", but did you ever stop to think how many jobs she actually fills? In the kitchen she's a cook and dietician, in the children's room a nurse and teacher, in the sewing room a costume designer, and in the living room an executive and interior decorator.

How does she manage to hold all these jobs? Well, she keeps informed. As cook, she reads the news and hunts for bargains in the grocery advertisements. As nurse she scans the listed values in drug and toilet preparations. As designer or decorator she finds the materials for her hands and the finished products for her home in the newspaper.

How does she find time to hold all these jobs? Well, for one thing, she's learned to buy at home. Once she had to waste time hunting for things she wanted. She had to send mail orders and take long trips to get them. But now those things come to her right here in Truckee on the shelves and counters of local stores. The result? A saving in time and money.

Cook, nurse, teacher, mother, and wife— a mighty important person this lady of the house. She's learned the tricks of her trade in the big business of running a home, tricks we might all do well to imitate— learn to buy wisely by buying at home.

FACTS ABOUT FUNDS

In the past five years the Federal government has paid out exactly $14,218,773,000 in emergency relief funds.

How much is that? More than $110 for every man, woman and child in America, enough dollors to six times bridge the distance from the earth to the more, enough $1 bills for 57 earth-girdling dollar chains.

Where has it gone? It takes a quarter of a billion dollars to circle the earth. Twelve belts for the earth's middle went for direct relief, 19 more for work relief. Fifteen world- circling girdles of dollars went for WPA projects, seven more for CCC camps, and four for odds and ends.

Where did it come from? Out of your pockets, Mr. and Mrs. Tx Payer, and out of the pockets of your children. And out of those pockets must come the billions of dollars in local and state relief as well.

What can we do about it? Take more interest in our local, state and national government. Watch the nation's dollars as we do our own pennies. And remember the dollars, 14,-218,773,000, now, that are gone.

LISTEN TO THIS

By TOM FIZDALE

The "show must go on" tradition is sacred to as veteran a trouper as Eddie Cantor, but there comes the time when even a Cantor must bow to the inevitable—sickness.

Eddie Cantor

Eddie missed his first broadcast in many a moon recently. But the ironic part was that a few days before his own program the comedian, against doctor's orders and running a temperature, did a free broadcast for one of his favorite charities. Result: Eddie was too ill to make his own show. Rudy Vallee got the news while he was 500 miles from New York—up at his cabin in Maine—and rushed by automobile, plane and fast train to Manhattan to headline the substitute program.

Charlie McCarthy, Bergen's wisecracking woodpile, goes under a carpenter's "scalpel" at the Universal studios in Hollywood any day now, emerging wired for knee-action . . . Heretofore, Charlie has sat on Bergen's lap or a stool, his legs hanging limply while he chatters, but the new McCarthy will be able to kick up his heels at Mr. Bergen if the construction job is a success—and providing Charlie's mentor pulls the right strings.

Al Jolson claims he's five pounds lighter after his weekly rehearsals for his Tuesday nighter . . . Gordon Griffin, Benny Goodman's trumpeter, and Ernani Bernardi, Goodman's saxophonist, are poppas . . . It's a son for Griffin and a daughter for Bernardi . . . That kidding Tim and Irene do about their horse on their Friday night airings is on the level . . . They actually have purchased a young colt, named it "Tacoma Kid" after Tacoma, Wash., where they started as a comedy team . . . The colt is being trained for 1939 competition.

Arlene Johnson

Plaudits for Arlene Johnson, Babs with "The Smoothies" heard on "Vocal Varieties" from Cincinnati. A swell show.

Tenor Morton Downey will put in an appearance on the Al Pearce show May 10 . . . Downey is one missing from radio's ranks who should be heard regularly again . . . Molly McGee has been absent from the "Fibber McGee and Molly" airing many months, due to illness, but now Molly is well on the road to recovery and the sponsor is offering listeners "Molly McGee's Rainbow Garden," an assortment of gladiola bulbs, as a gracious little compliment to Molly.

Gracie Allen's surrealistic art exhibit is moving east. Plans afoot to show it in Chicago soon, then New York . . . Barbara Luddy, "Margot of Castlewood" star, leaving soon for West coast vacation. She's also on "First Nighter" . . . Eric Sagerquist, "Hymns of All Churches" violinist, says he saves hour and a half a day now that warm weather is here . . . Saves that much time warming up his digits . . . Dolores Gillen, "Attorney at Law" player, off for Bermuda.

April 29 was a big day in the life of Paul Rhymer, author of the NBC serial, "Vic and Sade." On that date, Rhymer went back to his old home town, Bloomington, Ill., as guest of honor at a "welcome home" celebration. Rhymer left home a few years ago to take a staff writing job at a pittance. Now he's in the five figure bracket as a successful author. The setting of his popular script is his home town and the people are very real indeed to Bloomington.

Lloyd Shank has also enjoyed catching the limit on several occasions. Bob Wallace, a highway employe has been meeting with luck in the vicinity of Sunnyside harbor

Mr. and Mrs. S Pierson and daughter, Blanche left last week for a visit in the bay region .. Mrs. Bliss Hinkle proceeded to occupy their house in their absence in the capacity of caretaker .. while Mr. and Mrs. Tom Flannery who have occupied the Renner house for the winter moved into the Bliss domicile. MYRTLE BANK

WHEN Jamaica christens the beautifully smart hotels she creates she bestows upon them names worthy of their place in the world. The Grands, Palaces and Metropolitans are conspicuous by their absence on this isle, visited weekly by the 16-day cruises to the Caribbean from New York. The Myrtle Bank with its gorgeous gardens, open air dining terraces and swanky swimming pool is as cool and restful as its name. Another of Jamaica's luxurious hotels is the Constant Spring which also boasts a swimming pool, tennis courts and one of the finest golf courses on the island. Other interestingly named hostelries are South Camp Road, Newleigh, Moneague, Ethelhart, Doctor's Cave, and Glass Bucket Club.

Colorful names are by no means limited to hotels, however, in Jamaica. The island itself started the vogue with Xamaique, which means "Isle of Springs." Popular spas bear such names as Milk River Thermal Mineral Bath and Bath of St. Thomas the Apostle. There's a Hope, a Buff, a Robin's, and a Starve Gut Bay, and a Little Pedro Point. There are rivers called Wag Water, Yankee, and One Eye; and regions known as the Cockpit Country, the Land of Look Behind, Hardware Gap, The Above the Rocks, You Call Me and Me Not Come. There are John Crow Mountains, Lucky Hills, Lovers' Leap, Shooter's Hill, and Mount Diablo. There are such intriguing places as Pleasing Prospects, Perplexity, Folly, Ramble, Cocoa Walk, Cabbage Hall, Wait a Bit, White Horses, True Blue, Donks, Troy and Tyre, Thickets, Cross Keys, and Pepper. Such are only a few of the odd names that sprinkle the map of Jamaica.
